2-PIECE vs. 3-PIECE

2-PIECE (LID & BODY)

The 2-piece design is the most common and simplest. It consists of a lid and a body. The lid is typically made of a different material than the body, which is why it is often made of a different material. The lid is usually made of a different material than the body, which is why it is often made of a different material.

The 2-piece design is the most common and simplest. It consists of a lid and a body. The lid is typically made of a different material than the body, which is why it is often made of a different material. The lid is usually made of a different material than the body, which is why it is often made of a different material.

3-PIECE

The 3-piece design is the most common and simplest. It consists of a lid, a body, and a base. The lid is typically made of a different material than the body, which is why it is often made of a different material. The lid is usually made of a different material than the body, which is why it is often made of a different material.

The 3-piece design is the most common and simplest. It consists of a lid, a body, and a base.
